Project Overview:

Project Name: FitFlex: Your Personal Fitness Companion

Project Description: The overarching aim of : FitFlex: Your Personal Fitness Companion is to offer an accessible platform tailored for individuals passionate about fitness, exercise, and holistic well-being.

Project Version:

Testing Period:

Testing Scope:

Features and Functionalities to be Tested:

1. **Dashboard and Goal Tracking**

- Daily, weekly, and monthly tracking of workouts and progress.

- Personalized goal setting and tracking.

- Dashboard displaying fitness metrics (e.g., calories burned, steps, workout duration).

2. **Workout Library and Customization**
- Access to workout library, categorized by type, difficulty, and duration.
- Ability to select and start workouts.
- Custom workout creation and saving.
- Video or animated workout demonstrations.

3. **Wearable and Device Integration**
- Syncing with popular wearable devices (e.g., Fitbit, Apple Watch).
- Pulling data from health apps (e.g., Apple Health, Google Fit).

- Displaying real-time data and analytics from wearable devices.

User Stories or Requirements to be Tested:

1.Setting Fitness Goals

- As a user, I want to set fitness goals so that I can track my progress.

- As a user, I want to receive reminders about my goals, so I stay motivated.

2.Workout Discovery and Recommendations

- As a user, I want to browse workouts based on my fitness level, so I find suitable exercises.

- As a user, I want to receive workout suggestions based on my past activity, so I can improve progressively.

3*. Subscription and Premium Features*

- As a user, I want to explore premium features before purchasing a subscription.

- As a user, I want to manage my subscription within the app, so I can upgrade or cancel if necessary.

4*. Settings and Customizations*

  - As a user, I want to customize my profile, so the app aligns with my preferences.

  - As a user, I want to manage privacy settings to control my data visibility and security.

Test Cases:

Test Case ID	Test Scenario	Test Steps	Expected Result	Actual Result	Pass/Fail
TC001	Workout tracking and logging	1. Go to Workout 2. Log new workout 3. Save	Workout is logged and displayed	Open	Pass
TC002	Goal setting and progress monitoring	1. Go to Goals 2. Set new goal 3. Save	Goal is set and visible in profile	Open	Pass

Bug Tracking:

Bug ID	Bug Description	Step to reproduce	Severity	Status	Additional feedback
BG-001	Workout log not displaying correctly	1. Open app. 2. Log a workout session. 3. Go to workout history. Expected: Workout log displays correctly. Actual: Workout log is either missing or incorrect.	High	Open	Pass
BG-002	Goal progress not updating	1. Open app. 2. Set a fitness goal. 3. Perform activities. 4. Check goal	Medium	Open	Pass

		progress. Expected: Goal progress reflects activities. Actual: Goal progress does not update.
